SCOPE OF THE RESULT

EVIDENCE LEVEL **Historical**

- **Scope.** The report summarizes the return series in the bundle.
- **Signature.** No verified signature. Confirmatory provenance unverified.
- The engine recomputed the metrics from verified StrategyTrace net returns.
- **Annualization.** 252 periods per year. Annual risk-free rate 0.00%.
- **Uncertainty.** The bootstrap resamples the same historical return series.
- Monte Carlo has its own hash. It affects criteria only if preregistered for that purpose.
